ASSOCIATION NOTES

POST-GRADUATE TRAINING COURSE ON MODERN PROBLEMS IN BIOLOGY, PRAGUE, CZECHOSLOVAKIA, 1 OCTOBER 1968-15 SEPTEMBER 1969.

Sponsored by UNESCO, WHO and IAEA and which will be held in Prague, Czechoslovakia from 1 October 1968 to 15 September 1969.

This training programme is specifically intended for science graduates (Master of Science or equivalent degree) and especially for young scientists who have already had 2 or 3 years teaching or research positions in universities, laboratories or government services in certain biological fields as specified in the prospectus.

Full fellowships, covering the total cost of participation, including air fare (tourist class) for a round trip from their home countries together with a scholarship grant of 1.600 Czechoslovak Crowns per months, are being offered by the organizing institution to a limited number of applicants from developing countries selected on a competitive basis from among the best candidates accepted for the Course. These fellowships are provided by the organizing institution and not by UNESCO.

Participants will be selected on the basis of their background, qualifications and experience.

1. Applications are not to be sent to UNESCO, but instead directly to the address which follows:

Postgraduate Training Course "On Modern Problems in Biology" The Director, Institute of Microbiology, Budejovicka Street 1083, Praha 4-Krc., CZECHOSLOVAKIA.

- 2. Additional application forms and further supplies of publicity material are available by writing to the Director of the Course.
- 3. The Course is offered in English. It is therefore essential that the prospective applicants have an adequate working knowledge of that language. A certificate of proficiency in English should also be enclosed with the completed applications.
- 4. The closing date for application forms reaching the Institute of Microbiology in Prague is 31 May 1968 and the application forms must be submitted in triplicate. Applicants will be informed on their selection before 15 July 1968.
- 5. The completed application forms should be accompanied by the written consent of the respective government authorities (Ministry of Education or Unesco National Commission—if this is needed in accordance with the regulations of the applicant's country).

Full details on the Course, scholarships and accommodation are available from the Editor.

BOOKS RECEIVED

This notice does not preclude the books from being reviewed by the reviewing panel of the Singapore Medical Journal at a later date.

- 1. Advance in Fertility Control—Excerpta Medica Foundation.
- 2. The Patient's Progress-Ed. Felix Marti-Ibanez M.D., Publications New York.
- 3. Structure and Function of the Limbic System—Elsevier Publishing Company.
- 4. The Cerebellum—Elsevier Publishing Company.
- 5. Practical Anaesthesia for Lung Surgery — by R. E. Mansfield, R. J. Jenkins, Bailliere, Tindall, Cassel.
