

## ASSOCIATION NOTES

AMERICAN CANCER SOCIETY  
ELEANOR ROOSEVELT INTERNATIONAL CANCER FELLOWSHIPS

The International Union Against Cancer, with the funds provided by the American Cancer Society, will award fellowships for *research on cancer*.

The awards will be granted to experienced investigators who have demonstrated their ability for independent research and who wish to broaden their experience by a period of study at a single institution in another country.

Fellowships will be granted only to persons on the staff of universities, teaching hospitals, research laboratories or similar institutions.

Awards will be made to investigators who are devoting themselves either to the experimental or the clinical aspects of cancer research.

Fellowships will not be granted to persons who wish primarily to perfect their training in methods of cancer detection or in therapeutic techniques, or who wish to visit briefly several institutions abroad. The duration of the fellowships ordinarily will be one year but this period

may be longer or shorter in special circumstances.

The stipend will be based on the current salary of the applicant and the salary of comparable qualifications in the place where the applicant expects to study.

An allowance will be made for the cost of travel of the fellow and of those dependants who will accompany him from his place of residence to the institution where he will work, and return.

Deadline for receiving applications and supporting documents: 1 September. Successful applicants may begin their Fellowship at any time during the twelve months' period beginning 1 March.

Application forms and additional information may be obtained from:

THE YAMAGIWA-YOSHIDA  
MEMORIAL INTERNATIONAL CANCER STUDY GRANTS

The Yamagiwa-Yoshida Memorial International Cancer Study Grants are supported by funds made available by the Japan National Committee for the UICC. They are administered by the International Union Against Cancer.

They are designed to enable investigators of any nationality to gain experience in, or make comparative studies of, special techniques in both the biological and clinical aspects of cancer research.

These grants are available only for study outside the grantee's country of residence since they are intended to accelerate and encourage international collaborative activities.

The study grants will not be awarded for the purpose of visiting a number of institutes or of solely participating in congresses, conferences, and symposia.

They will be awarded for periods not exceeding 90 days.

Each grantee will receive a travel allowance, equivalent to tourist/economy air fare, and a per diem allowance sufficient to cover board, lodging and incidental expenses; however, no allowance will be paid for dependents.

The closing dates for receipt of applications will be 30 June or 31 December of each year.

Successful applicants will be notified within 90 days of each closing date. Study Grants must be activated within 180 days of the date of notification.

Application forms and additional information may be obtained from:
